

# OSKANJAN – THE FOUNDATION AND FURTHER WORK OF THE ASTROPHYSICAL GROUP

JELISAVETA ARSENIJEVIĆ<sup>1</sup>, ALEKSANDAR KUBIČELA<sup>1</sup> and ARMEN OSKANJAN<sup>2</sup>

<sup>1</sup>*Astronomical Observatory, Volgina 7, 11000 Belgrade, Yugoslavia*

<sup>2</sup>*Bjirakan Astrophysical Observatory, Bjirakan, Republic Armenia*

**Abstract.** A short chronology of development of the Astrophysical Group at Belgrade Observatory is presented. The description of Oskanjan's early efforts in stellar photometry and polarimetry is cited in his own words taken from a magnetic record. His later activity at Bjirakan Astrophysical Observatory is also described.
