

REALIZATION OF THE SUPERAST PROJECT

In 2019, the Ministry of Education, Science and Technological Development of the Republic of Serbia awarded the Department of Astronomy funds for the implementation of the project "Supercomputer Astronomy (SUPERAST) - Innovation and development of new curricula of supercomputing astronomy in order to apply scientific simulations and methods of big data analysis in entrepreneurship." The SUPERAST project is the first of its kind at the Department of Astronomy that is aimed at the global development of computing resources of the Department and lasted for a year. Here we will give an overview of its realization.

Key words: high performance computing cluster, projects, history of astronomy
