

ACTIVITIES OF THE ASTRONOMICAL SOCIETY "EUREKA" ON THE CONSTRUCTION OF THE ASTRONOMICAL OBSERVATORY "ŠARENGRAD" IN KRUŠEVAC

Astronomical Society "Eureka" was founded in 2010 in Kruševac with the aim of promoting astronomy and related sciences. During its existence, the Society has realized a large number of public astronomical observations, lectures, and projects. One of the main goals with which the association started its work was the construction of an astronomical observatory in Kruševac. After a large number of attempts, the association successfully realized this goal in 2022.

In this paper will be discussed the activities undertaken to build the observatory and the activities that will be implemented in the said observatory.
