

## **ASTRONOMICAL CONTESTS IN 2021 AND 2022**

During 2021, 2022 and in early 2023 National Astronomical Olympiad Committee (NAOC) organised extrateaching for secondary school pupils which served as a preparation for astronomical contests: within Serbia on both regional and national levels, as well as participating of Serbian contestants in IOAA (International Olympiad on Astronomy and Astrophysics). An overview of all astronomy competitions held in this period is given.

**Key words:** Astronomical contests, Secondary School, NAOC.
