INSPECTOR IN KARLOVAC!**

Milan Radeka, in his writings, entitled "Memories", published in the "Chronicle of SKD "Prosvjeta" from Zagreb, remembers the stay of the education inspector from Belgrade, Jlenko Mihailović, in the gymnasium in Karlovac, from which we report very interesting details. One shorter note is a meeting with an known astronomer, in the "Danica" concentration camp. He also mentions a meteorological (in a broader sense, astronomical) phenomenon experienced during the winter of 1941-1942. in Belgrade.
