

**SPECTROSCOPICAL INVESTIGATIONS OF EXTRAGALACTIC  
OBJECTS ON ASTRONOMICAL OBSERVATORY  
(2008 – 2009)**

In this paper, we present the work on the project P146002 (Astrophysical spectroscopy of extragalactic objects) in the period 2008-2009. Work on the project is funded by the Ministry of Science and Technology of Republic of Serbia. Here we describe scientific activity and provide a list of published works in this period.
