

## **“MULTIVERSE OF LOVE” OR ARTIST’S NIGHTMARE**

The book of poetry “Multiverse of Love” (to be printed) is presented here in one unusual way – through photography as a theater where poetry is going to be performed. From 77 poems (selection by writer Laza Lazić) by Nataša Stanić, just 17 have been presented to the public in video presentation with photographs by Marija Milovanović Maksimović. Parallel artistic Universes of Nataša and Marija are touching and interlacing by their cosmic inspiration, and dance of light and darkness, dance of possible and impossible worlds. This work is only a short vision and pure need to do an experiment in art as well as in science – not only from poetry to photography, but also from photography to poetry. Therefore, three of 17 art photographs by Marija, and six (of 77) poems have been shown in this paper to lead you, readers, on interesting and inspiring journey.
