

COSMIC MOTIVES ON THE ART PHOTOGRAPHIES OF SANJA CVETKOVIĆ

On art photographs of Sanja Cvetković, which are rich in astro-visual motifs, most diverse symbols of cosmic spheres are present: the clouds, the games of light and silhouettes, philosophical categories of space and time, especially with the instant poetological guidelines. She creatively affects and records landscape, documentary, architectural, and other aspects with the ontological essence and vital, productive and spiritual meaning. Here are analysed several characteristic photographs.
