

NEW POETICALLY DECONSTRUCTED LYRICALLY-SONETIC CREATIONS OF DJORDJE PETKOVIĆ WITH A TAIL AND ACROVERSE IN THE MIRROR

We consider here the poetical contribution of Djordje Petković *Astrobranch from the Balkans*, prepared on the occasion of the Conference "Development of astronomy among Serbs' VII, which contains, as the author notes, "Reply to the verses of Bulgarian, Greek and Serbian astronomer-poets, as well as "Astrals of Geo" II and III, published "For the VIII Serbian-Bulgarian conference in Leskovac." As indicated on the lateral margins, the inspiration was the lyrical works of the members of the Literary Club 'With Geo on the Redut."
