

RETROSPECTIVE OF PERFORMANCES OF DRAGAN RADMILOVIC, THE CHAIRMAN OF AMATEUR ASTRONOMER ASSOCIATION OF SERBIA DURING 2012-2014.

This paper is a retrospective of the activities that the chairman of Association of Astronomers Amateurs of Serbia (AAAS) Dragan Radmilović performed in the period from 2012 to 2014.

The aim of this paper is to collect all work of AAAS chairman in one place and promote his unselfish popularization of astronomy. His work has been present in Serbia and surrounding countries. He participated in many projects and often the only person from Serbia who was making the “bridges” for cooperation.

The conclusion is that all activities on behalf of AAAS was performed by Dragan Radmilovic. He has started cooperation with many amateur astronomer associations. His lecture's expertise was at high level although he did not have astronomer diploma.

Non-formal education can provide a high level of knowledge of scientific achievements and information to many interested individuals. Linking of information, knowledge, interest and use of information technologies in expanding non-formal education at all periods of people's life takes the prominent position.

The analytic synthetic method was used in this paper.

Key words: Popularization of Astronomy, Education of Astronomy, Dragan Radmilović
