

ACTIVITIES OF ASTRONOMICAL SOCIETY "EUREKA" WITHIN THE PERIOD 2014 - 2017

In this paper we present activities that Astronomical Society "Eureka" has been taken in the period from 2014 to 2017 for the promotion of astronomy. Also, in addition to standard activities, such as lectures and observations, large part is devoted to projects implemented. Results will be presented and projects described, so that other astronomical clubs can use them in their work. It will also be briefly described the upcoming activities planned by the end of the year.

Key words: Eureka, Krusevac, promotion of astronomy, projects
