

## **SRETKO DIVLJAN - CELESTIAL PAINTER**

In the more extensive work on the painting of Sretko Divljan the accent is placed on the aspects of the cosmic symbolism present on some of his artistic achievements. It points to neoexpressionism in coloring, to figurativity, cosmical in geometricized abstractions and a special type of lyrically refined fauvism.

**Key words:** „Divljanizm“, Astronomy in Arts, Astronomy in Culture, Sretko Divljan
