

2nd International Meeting on Building Bridges Between Climate Science and Society Through a Transdisciplinary Network

Belgrade, Serbia & virtual
21-25 September 2026

FIRST ANNOUNCEMENT

Dear colleagues,

The Organizing Committee cordially invites you to participate in the **2nd International Meeting on Building Bridges Between Climate Science and Society Through a Transdisciplinary Network**, to be held at the Institute of Physics Belgrade, University of Belgrade, as well as via an online platform. We warmly encourage you to submit your latest research findings and would greatly value your contribution to this year's program.

Scientific rationale

The linkage between climate and society highlights a profound reciprocity, where climate shapes the foundations of social structures, while societies themselves transform the climate. This conference aims to bring together researchers, practitioners, and professionals from diverse fields to address complex emerging challenges related to these issues. Participants will have the opportunity to explore innovative perspectives, share research findings, and discuss practical approaches for integrating knowledge across disciplines. By fostering dialogue and cooperation, the conference seeks to encourage new partnerships and advance interdisciplinary solutions.
